

South East London
Clinical Commissioning Group

Live in Lambeth?

Interested in mental health issues, or had experience of using mental health services in the community or in hospital?

We're looking for volunteers to take part in an online group discussion to help us improve inpatient services. If you're male, between the ages of 18 and 64 and would describe yourself as having a Black British, African or Caribbean background, we'd love to hear from you. The small group will take place before the end of May and will last about an hour. We can offer a gift voucher to show our appreciation. Get in touch @ lamccg.hospitalconsultation@nhs.net

This message is being sent on behalf of NHS South East London Clinical Commissioning Group and South London and the Maudsley NHS Foundation Trust, who plan and provide mental health services for Lambeth residents
